CERTIFICATIONS

- PBL – Project Based Learning.
- NCC - B .
- NCC – C .

OBJECTIVE

I am an enthusiastic Aeronautical Engineering student with basic knowledge in aircraft design, aerodynamics, and drone systems .I am an motivated person who is always in hunt of learning new things and would also like to put my leadership skill ahead . I am proficient in leading a team and also in other hand .I can fit in a team and give my best output. Looking for an opportunity to apply my skills.

PROJECTS

- Involved in "Optimizing Energy Harvesting Tiles ", with a key lead in design of the generator for the energy production.
- Experimental Study On KFRP Composites For Aerospace And Defence Applications Using Shock Tube Testing

EXPERIENCE

- NCC AIRWING Cadet Corporal As an NCC Airwing Cadet, I have actively participated in camps and events. Through these experiences, I gained valuable exposure to aeromodelling, Aviation and the defence sector.
- The People Of Tomorrow Trust (POTT Member).The People Of Tomorrow Trust is an officially registered trust.
- Organizing event : Office Bearer of NCC Airwing-KCT Media Coordinator of the NCC Airwing, Acts as the bridge between NCC and the public, ensuring proper communication of events and achievements.

INTERNSHIP

- Avironix Drone Manufacturing Company – Intern, UAV & Drone Integration Duration: [june, 2025] – [june, 2025] Worked on fixed-wing UAVs and drones, contributing to integration and assembly processes.Gained hands-on experience with drone component assembly and system integration.Utilized CATIA V5 software for designing and analyzing UAV components.Learned about UAV manufacturing workflows, assembly techniques, and industry practices.

TECHNICAL SKILLS

- CATIA .
- ANSYS (basic).
- SOLID WORKS.
- Ardupilot(basic).
- Aero Modeling.
- MS Excel.

SOFT SKILLS

- Public Speaking.
- Leadership.
- Learning New Things.
- Management.
- Presentation.
